# WALLS, DOORS, AND WINDOWS

## ...for pole-type buildings

This plan shows typical details of pole-type buildings that often are not given on construction plans. It will aid builders who are not experienced in pole-building construction.

A reduced-scale copy of the plan is shown on the other side of this sheet.

A large-scale plan may be obtained through your county agent or from the Extension agricultural engineer at most State agricultural colleges. There is usually a small charge.

ORDER PLAN NO. 5833, WALLS, DOORS, AND WINDOWS FOR POLE-TYPE BUILDINGS.

If the plan is not available in your State, write to the U. S. Department of Agriculture, Agricultural Engineering Research Division, Plant Industry Station, Beltsville, Md. The U. S. Department of Agriculture does not distribute plans, but will direct you to a State that does distribute them.
